ordered a new control commande and installed it . None of the speeds work. Any ideas/

I have a 2005 gmc sierra pickup 1500. My fan speed switch ...

Blower motor does not always work on speeds 1-3. Found the pin on the red wire on the plug located under the dash on the blower motor housing had a burnt and loose pin. The red wire is hot when you slect speed 3. The plug has four pins, one for each speed. Speed 4 bypasses the resistors for maximum fan speed so that is why this speed always works.

GMC Canyon AC/Heater Fan Does Not Work at Some Speeds

The front blower motor only works on settings 1-3 and the rear blower motor blows cold air out of roof vents when heater is on drove car for approx 40 miles and no heat out of roof vents Report 2005 GMC Envoy 121,000 mi,
