Advanced Life Support Course Atls

Advanced Trauma Life Support. The Advanced Trauma Life Support® (ATLS®) program can teach you a systematic, concise approach to the care of a trauma patient. ATLS was developed by the American College of Surgeons (ACS) Committee on Trauma (COT) and was first introduced in the US and abroad in 1980. Its courses provide you with a safe and reliable method for immediate management of injured patients.

Advanced Trauma Life Support

The Advanced Trauma Life Support® (ATLS®) Student Course presents a concise approach to assessing and managing multiply injured patients. The course presents doctors and other qualified healthcare providers with knowledge and techniques that are comprehensive and easily adapted to fit their needs. The skills described in the manual represent one safe way to perform each technique, and the American College of Surgeons (ACS) recognizes that there are other acceptable approaches.
