Software, computers, games, and devices require user manuals, guides that explain how to use the product (and how not to). A user manual is a formal writing piece with a specific structure, and should be written by someone who is intimately familiar with the product such as a technical writer or the product designer.

How to Create a User Manual (with Pictures) - wikiHow

Basically, the procedure of user guide creation looks like the following: create a title page, write a preface, describe each step, insert already edited screenshots, add other necessary text, and format the user instruction manual.

How to Create a User Instruction Manual | Stepshot

A user guide, also commonly called a technical communication document or manual, is intended to give assistance to people using a particular system. It is usually written by a technical writer, although user guides are written by programmers, product or project managers, or other technical staff, particularly in smaller companies.
