Geo Political Significance Of Kashmir

Kashmir as a Geographic Bridge to Central Asia. The importance of Kashmir – which currently falls under the control of three nuclear-powered neighbors, namely China, India and Pakistan – arises from its geographic positioning, particularly in that it shares borders with Afghanistan, a country where South Asia meets Central Asia.

Kashmir's Geopolitical Significance Is Growing by the Day ...

Geopolitical significance is an important aspect of relation between states which have common borders. In case of India and Pakistan, geopolitical deliberations owe their significance to the very...

Geo-political Significance of Kashmir: An overview of Indo ...

The Kashmir policy of the Government of India has been marked by the carrot and stick approach. It was then supplemented by lavish central aid to the state along with the supply of rice at heavily subsidised rates. More generous central aid was once again promised in exchange of Farooq's agreement to share power with the Congress in 1986.

Understanding the Factors Behind the Kashmir Conflict ...

Sharing border with three dominant powers of South Asia, namely India, China & Pakistan, Kashmir has both geopolitical and geostrategic importance. If Pakistan succeeds in annexing it, it would be sitting right next both to Punjab & Himachal Prade...

What's Kashmir's geopolitical and geostrategic importance ...

The Chinese factor attaches a relatively new but significant reality to the Kashmir issue. In recent years, Beijing has become a major strategic ally of Islamabad. The China-Pakistan Economic Corridor (CPEC), which runs through the diputed territory of northern Kashmir, is key to the success of the Road and Belt Initiative.

Kashmir in geopolitical context - Modern Diplomacy

The Greater Kashmir that is disputed between Pakistan and India includes Jammu, Kashmir, Ladakh, Azad Kashmir, Gilgit-Baltistan, Aksai Chin and the Trans-Karakoram Tract (Shaksgam Valley). Put together, this would make a large territory with borders with China, India, Pakistan, Afghanistan and Tajkistan.

Geopolitics of Kashmir | The Express Tribune

Since 1947, India and Pakistan have been locked in conflict over Kashmir, a majority-Muslim region in the northernmost part of India. The mountainous, 86,000-square-mile territory was once a...

The Kashmir conflict: How did it start? - Culture

The geo-political significance of Northern Areas for India is because of the reason that NA is an integral part of Princely State of Jammu and Kashmir. NA is significant for Pakistan due to the reason that it is the only region which has borders with Afghanistan, China, POK (Pakistan Occupied Kashmir) and India. This region is also strategically

Geopolitical Significance of Gilgit Baltistan of J & K State

On June 5, the Pakistan Army shot down an Indian spy drone that violated Pakistan's airspace by intruding 500 meters inside Pakistan's side of the Line of Control (LoC). This is the 8 th Indian spy drone the Pakistani forces have intercepted and shot down in 2020. In the wake of recent Indian provocations leading to exchanges of fire between Pakistan and India, these airspace violations ...

The Increasing Significance of Anti ... - The Geopolitics

Geopolitical significance of Kashmir and Dogra Regime After coming under the Dogras the geopolitical significance of Kashmir increased because of Kashmir became a landlocked territory in South Asia- surrounded by then Afghan empire in the West, Chinese empire in the East, British India in the South and Soviet Union in the North.

PPT ON DOGRA RULE IN KASHMIR

Pakistan's economic and geopolitical interests are bound to grow rapidly in the most important sea of the IOR. Earlier this March, flying Ormara base a Pakistan Navy aircraft detected an Indian submarine and halted its advances during a time of great regional tension.

Geopolitics of the Indian Ocean Region

America under Donald Trump is disengaging from direct wars. It would much rather that local players fought each other as in Syria recently. Pakistan has retained its position as a geo-political ally for China and Russia as well as UK and USA. The Pakistan and China axis in Kashmir is actually the doomsday scenario that India faces in the region.

OPINION | The Kashmir Conundrum: Pressures and Pulls of ...

Knowing the geopolitical importance of this region, the geography of the area, and the hazards of the past invasions from the North, Mr. Patel and Mr. Nehru indirectly supported a separate land for the Muslims who mostly inhabited in the Indus Valley.

Geopolitical importance: A different perspective

India's decision last week to revoke a decades-old constitutional provision granting the Muslim-majority territory of Kashmir a degree of autonomy comes at a particularly fortuitous moment in...

How geopolitics enabled India's gambit in Kashmir

One of the most important points of concern between the two countries is Kashmir. Kashmir has been and still is a constant source of tension and a potential recipe of disaster between the two countries. That is why many have termed it as a 'nuclear flashpoint'; just waiting to go off.

It explores ways in which developing concepts within political geography have contributed to understanding the ongoing significance of the region for all the parties to the dispute, and suggests ...

Regional geopolitics in a globalising world: Kashmir in ...

China was the main actor in highlighting the 'disputed' nature of Kashmir's historical and political entanglements. This powerful spectrum of internationalising the hostilities and tragedies being carried out in Kashmir cannot be brushed away. This has weakened the rhetoric of 'bilateral issue' between India and Pakistan.
