Herbal, ancient manual facilitating the identification of plants for medicinal purposes. Hundreds of medicinal plants were known in India before the Christian era, and the Chinese have a compilation, still authoritative, of 1,892 ancient herbal remedies. The Greeks had written accounts, and, according to the elder Pliny, the physician Crateuas (early 1st century bc) produced a herbal with coloured illustrations.

Herbal drugs are made from the roots, stems, leaves, bark, fruit, seeds, or flowers of various plants known or believed to have medicinal properties. Many conventional drugs are also derived from plants. In fact, the word "drug" comes from the French word *drogue*, meaning "dried herb." Herbal and conventional drugs differ significantly, however.

Herbal Drugs | Encyclopedia.com

An antique selection of herbal medicines. Herbal medicine (also herbalism) is the study of pharmacognosy and the use of medicinal plants. Plants have been the basis for medical treatments through much of human history, and such traditional medicine is still widely practiced today.
