BINGO card such that each square has 1 integer and a different integer is in each square. 2. Solve each problem as it is presented. 3. On your BINGO card, cross out answers to the problems as you get them. 4. Say BINGO proudly when you get 5 numbers crossed off your card in a row! (horizontally, vertically, diagonally)

MATH BINGO - Mathcounts

Math BINGO is a lot like regular BINGO, but instead of calling numbers, we'll be giving you math problems to solve! Every math problem in our BINGO game has an answer that is an integer between 1 and 60. Once you've solved the problem, cross off the corresponding answer on your card, if you have that number.

Math Club Day | MATHCOUNTS

It's just like regular BINGO, but better because you also get to solve fun math problems! Play just for fun or register

The National Math Club is designed to be very flexible so different types of groups of all sizes can participate. Clubs must consist of at least 4 U.S. students in grades 6-8 who have regular meetings, in person or online, but the specific number of math club meetings and frequency are determined by the club leader.

RAVES for Early Math Counts. These are by far the best online education courses I've ever taken. They were informative and easy to follow —with tips on setting up a math-enriched environment and interviews with math experts, as well as animations and videos that brought many of the teaching concepts to life.
