The site they say will be closed by the end of June 2016, so grab your favorite books as soon as possible.

### Pressure Test Procedures Stanford University

There are two methods for pressure tests: hydrostatic and pneumatic. A hydrostatic test is performed by using water as the test medium, whereas a pneumatic test uses air, nitrogen, or any non-flammable and non- toxic gas. At SLAC pressure tests must be hydrostatic unless pneumatic tests can be justified.
