The RAF used Harriers in the ground attack and reconnaissance roles, so they relied on the short-range AIM-9 Sidewinder missile for air combat. The Sidewinder had proven effective for Royal Navy's Sea Harriers against Argentinian Mirages in the Falklands conflict ; however, from 1993 the Sea Harrier FA2 could also carry the much longer-range AIM-120 AMRAAM , a radar-guided missile.

Harrier Operations during the Falklands war was a combination of sea harrier ops taking care mainly of the air to air roles, which incidentally seemed to be the most widely covered. I knew very little about the involvement of the Harrier GR3's during the conflict, perhaps due to the Royal Navy as is alluded to in the book.

This book fills that void very well, providing a wealth of detail in describing the lead up, deployment and day-to-day combat operations of the small contingent of Royal Air Force attack Harriers....is a well written, interesting and highly informative personal memoir (anyone who would describe the Folland Gnat as "an aircraft built for hooliganism" certainly has a flair for aerial description) and provides a much needed addition to the body of work covering the air war over the Falklands
