You can search Google Books for any book or topic. In this case, let's go with "Alice in Wonderland" since it's a well-known book, and there's probably a free eBook or two for this title. The original work is in the public domain, so most of the variations are just with formatting and the number of illustrations included in the work. However, you might also run into several copies for sale, as reformatting the print copy into an eBook still took some work. Some of your search results may also be related works with the same title.

Sample User Guide For Software

The software developer knows more than anybody what makes the software work, but that doesn't mean the developer should write the guide. On the contrary, it is a distinct disadvantage. More important than a deep understanding of the inner workings of the software is an understanding of who the end user will be, what his educational level is ...
