The Nature Of Fascism Paperback

Roger Griffin is Professor in Modern History at Oxford Brookes University, UK. His major work is "The Nature of Fascism" (1991), which established the first new theory of generic fascism for over a decade. It is a theory that continues to have a major influence on the teaching and development of fascist studies by political scientists and historians alike.

The Nature of Fascism by Roger Griffin - Goodreads

Edited by Roger Griffin, described as 'the premier theorist {of fascism} of the younger generation' (Contemporary European History), this important Oxford Reader demonstrates why fascism strongly appeals to many people, and how dangerous the result of this fascination may be. It includes a wide selection of texts written by fascist thinkers and propagandists, as well as by prominent anti-fascists from both inside and outside Europe, before and
