## Read Free The Value Chain Map Ser

A Value Chain Map is a high-level process map or value stream map: the term value chain coming from the strategy literature – Michael Porter. I prefer the term value chain because it reminds me that we are trying to link operations to strategy. But any other term is acceptable so long as the tool does the same thing.

### **Value Chain Maps | Ashridge on Operating Models**

By definition, the map is a static snapshot of the value chain structure and cannot adequately represent factors that influence the conduct of individual value chain participants. It does not show end market requirements and opportunities.
