Woodturning is the craft of using the wood lathe with hand-held tools to cut a shape that is symmetrical around the axis of rotation. Like the potter's wheel, the wood lathe is a simple mechanism which can generate a variety of forms. The operator is known as a turner, and the skills needed to use the tools were traditionally known as turnery.

Woodturning - Wikipedia

Turn a piece of wood into the given shape. Cut (carve), polish, paint and add a stencil to your work. Earn mooney and improve your lathe room.
